

PERIOD 9 (4 FEB 2024 TO 3 FEB 2044)

In time dimension Feng Shui, there are a total of 9 periods. Each period lasts 20 years and it takes a total of 180 years to complete a cycle of the 9 periods. In every 20 years, there is a major energy change in the Universe due to the planetary movements between the Sun and the stars. As a result, when a period transits from one to another, it also brings about major changes in Feng Shui. This can already be seen in the upheavals, natural disasters and unrest in the recent few years.

Period 9 starts from February 4th, 2024 and will last for 20 years to February 3rd, 2044. As we approach 2024, no feng shui analysis of any home or office can be completed without taking time into account.

As we transited into Period 8 in 2004 which belongs to the Ken Trigram in Bagua, represented by Northeast (representing the mountain), young men and the Earth element. Hence in Period 8, young men dominated and there has been an increase in outstanding performances or contributions by this younger generation. Most importantly, as we enter the new period, houses and buildings that were built in Period 8 (between 5th Feb 2004 to 4th Feb 2024) and especially Period 7 (between 4th Feb 1984 to 4th Feb 2004) or before will lose its chi energy and strength.

Changing the period of a house or building will involve the changing of at least one third of the house/building's roof (heaven luck), flooring (earth luck) and facade (mankind luck). Thus, renovating your apartment which may only be one of many units in your unit's building will not change the period of your home. However, we can still activate the 9 Wealth and Relationship energies within your home.

Period 9 belongs to the Li Trigram in Bagua, which is represented by South (representing Fire, Fame and Recognition), the middle aged women and the Fire element. There will be a major shift in thinking from profit/ wealth to purpose; controlling to empowering/ motivation as well as hierarchies to networks. There's also the need to build more than 1 stream of income as the Fire element is not as stable as the Earth element represented in the previous Period 8 (4 Feb 2004 to 3 Feb 2024).

Inauspicious Locations/Directions

1.6 **WEST (#5 Yellow Star)**

The most unlucky of all stars is the #5 Yellow (wu wang) star. This vile star in the West sector in the year 2024 will affect the health and luck of the youngest daughter of the family. If this is a common activity area, the main entrance sector or bedroom, it is important to stay protected against this vile star as it may block success and create problems for everyone in the family or office. Make sure that you place **the 8" 5 element pagoda to lock up this most unlucky star, else new products made in brass, bronze or other metal such as the Heart Sutra Pillar or Golden Mantra Pillar (cannot be placed in kitchen, bedrooms, toilets or on the floor) can be utilized as well.**

If the W is a main activity area, ensure you have at least 2 of these cures. Spend as little time in this area as possible. Alternatively, hang up 6 pieces of 6 rod all metal wind chimes to counter this star. Do not disturb the W this year, i.e. begin or end renovations, drill, knock or chop down trees, dig the earth. Minimise activity in the W sector of your home or office in order to avoid triggering off the destructive energies that cause serious misfortune. If this is the kitchen, it may be better to cook less as the fire energy from cooking may aggravate the misfortune 5 star, do not cut in this kitchen in 2024. More metal pots and pans should be displayed out.

Remove all earth element items such as crystals, porcelain vase or stone objects from this part of your office/ home. In addition, do not have any Fire (red, pink, orange) or Earth (yellow, beige, light brown) elements in these areas.

Please note that unless suppressed, the wu wang (5 Yellow) brings severe illness, accidents and loss that occur in many aspects of life, especially if your main entrance is in the W sector or you are utilizing it as an office or sleeping in a room in the W. Prevention is better than cure, so do not wait until it is too late.

1.7 CENTRE (#3 Jade Star)

The #3 Jade star is often regarded as quite unlucky as it often brings conflict and argument to the company/home or the aggravating energy of litigation and court cases. For 2024, it is in the Central sector and will affect everyone in the family or office especially if it is a commonly utilized area. It is thus crucial to avoid utilizing or protect the Central sector if it is at the main entrance, a commonly utilized area, bedroom or your office room.

As mentioned above, If this sector is utilized often, everyone will be subjected to more mood swings and may affect the harmony at home or office. Residents will be easily stressed and relationships will be strained. In order to reduce the quarrelsome & argumentative tendencies, we need to control this star with more yin fire (eg Red, Pink or Orange) and yin metal (eg. White, Silver or Gold) energy. It is crucial not to have loud clinging metal or alarm clocks that can aggravate the afflicted energy. Place a laughing Buddha, a mandala sticker (not in bedrooms of couples), golden mystic knot, red crystal apple or triangular crystal, a red crimson ball or the golden mystic knot decals to control the quarrelsome energies in the Centre in 2024. The latest items such as the 7 Royal Emblems Red Plaque, the 9 Amulets Plaque or the Mahaboudhi Stupa (not in kitchens, storerooms, toilets, bedrooms of couples or on the floor) are also effective in controlling this conflict star.

1.8 SOUTHEAST (#2 Black Star)

The #2 black star is regarded as rather unlucky as it brings illness (flu, fever, cough bug or other serious illness) to the residents of the house. This year it has flown into the Southeast wood element sector of the home. Though not as strong, it is still important to protect this part of your home, especially if it is a commonly utilized area and can affect everyone. It may bring about serious illness or residents may be more susceptible to viruses and falling ill easily. This can affect the middle daughter at home. To safeguard against falling ill, especially if this is the room of an elderly or the main entrance area, it is recommended to have the Herbal Wulou, the Golden Garuda Wu Lou or Medicine Buddha plaque (not in the kitchen, toilet or bedroom) or a bronze wulou or 6" 5 element pagoda with coins if it is a couple's bedroom, to capture the illness energy. Alternatively, either have lots of metallic items, hang the 6-rod metal wind chimes or place the 3" bronze wulou with bagua or 6 emperor coin ruler in order to control this vile star.

Remove all earth element items such as crystals, porcelain vase or stone objects from this part of your office/home. In addition, do not have any Fire (red, pink, orange) or Earth (yellow, beige, light brown) elements in these areas.

1.9 SOUTH (#7 Red Star)

The violent star #7, also known as the red star brings chances of burglary, theft and metal-related accidents, in 2024, it afflicts the middle daughter of the family since it is occupying the S sector of the household or office area. It is a number that can cause aggression, accidents, mishaps and metal-related injury and with it being in a Fire element sector of the South, fire-related accidents may also occur. It can also cause political turmoil and sparks aggressive behaviour that can become something serious very fast.

The best way to overcome this star is to have a pair of rhinoceros or a blue rhinoceros with elephant to protect and safeguard your home. New cures such as the Dragon Tortoise supporting a Totem with Elephant and Rhinoceros can be utilized provided it is not the bedroom and should not be placed on the floor. It is important not to have too much metal or crystal or the colours of Earth (light brown, yellow or beige) and Metal (white, silver or gold) in the S of the home/ office in 2024. More Black, Blue or Grey should be used in this area. If your main entrance or bedroom is located in the S of the house, it is important for the family members to carry a blue rhinoceros or black obsidian wulou charm for protection.
