### Inauspicious Locations/Directions

#### 1.6 NORTHEAST (#5 Yellow Star)

The unluckiest of all stars is the #5 Yellow (wu wang) star. This vile star in the Northeast sector in the year 2025 will affect the health and luck of the youngest son of the family. If this is a common activity area, the main entrance sector or bedroom, it is crucial to stay protected against this vile star especially in 2025 since the Northeast is an earth sector aggravated by the annual 5 yellow star. Spending time in this sector may block success and create problems for everyone in the family or office. Make sure that you place **the 8" 5 element pagoda to lock up this most unlucky star, else new products made in brass, bronze or other metal such as the Heart Sutra Pillar or Golden Mantra Pillar (cannot be placed in kitchen, bedrooms, toilets or on the floor) can be utilized as well.**

If the NE is a main activity area, ensure you have at least 2 of these cures. Spend as little time in this area as possible. Alternatively, hang up 6 pieces of 6 rod all metal wind chimes to counter this star. Do not disturb the NE this year, i.e. begin or end renovations, drill, knock or chop down trees, dig the earth. Minimise activity in the NE sector of your home or office in order to avoid triggering off the destructive energies that cause serious misfortune. If this is the kitchen, it may be better to cook less as the fire energy from cooking may aggravate the misfortune 5 star, do not cut in this kitchen in 2025. More metal pots and pans should be displayed out.

Remove all earth element items such as crystals, porcelain vase or stone objects from this part of your office/ home. In addition, do not have any Fire (red, pink, orange) or Earth (yellow, beige, light brown) elements in these areas.

Please note that unless suppressed, the wu wang (5 Yellow) brings severe illness, accidents and loss that occur in many aspects of life, especially if your main entrance is in the NE sector or you are utilizing it as an office or sleeping in a room in the NE. Prevention is better than cure, so do not wait until it is too late.

### 1.7 NORTHWEST (#3 Jade Star)

The #3 Jade star is often regarded as quite unlucky as it often brings conflict and argument to the company/home or the aggravating energy of litigation and court cases. For 2025, it is in the NW sector and will affect the patriarch in the family or the male members or leaders especially if the NW sector is a commonly utilized area. It is thus crucial to avoid utilizing or protect the NW sector if it is at the main entrance, a commonly utilized area, bedroom or your office room.

As mentioned above, If this sector is utilized often, everyone will be subjected to more mood swings and may affect the harmony at home or office. Residents will be easily stressed and relationships will be strained. In order to reduce the quarrelsome & argumentative tendencies, we need to control this star with more yin fire (eg Red, Pink or Orange) and yin metal (eg. White, Silver or Gold) energy. It is crucial not to have loud clinging metal or alarm clocks that can aggravate the afflicted energy. Place a laughing Buddha, a mandala sticker (not in bedrooms of couples), golden mystic knot, red crystal apple or triangular crystal, a red crimson ball or the golden mystic knot decals to control the quarrelsome energies in the Centre in 2025. The latest items such as the 7 Royal Emblems Red Plaque, the 9 Amulets Plaque or the Mahaboudhi Stupa (not in kitchens, storerooms, toilets, bedrooms of couples or on the floor) are also effective in controlling this conflict star.

### 1.8 CENTRE (#2 Black Star)

The #2 black star is regarded as rather unlucky as it brings illness (flu, fever, cough bug or other serious illness) to the residents of the house. This year it has flown into the Central earth element sector of the home, which will make this afflicted star stronger. It is still important to protect this part of your home, especially if it is a commonly utilized area and can affect everyone. It may bring about serious illness or residents may be more susceptible to viruses and falling ill easily. To safeguard against falling ill, especially if this is the room of an elderly or the main entrance area, it is recommended to have the Herbal Wulou, the Golden Garuda Wu Lou or Medicine Buddha plaque (not in the kitchen, toilet or bedroom) or a bronze wulou or 6" 5 element pagoda with coins if it is a couple's bedroom, to capture the illness energy. Alternatively, either have lots of metallic items, hang the 6-rod metal wind chimes or place the 3" bronze wulou with bagua or 6 emperor coin ruler in order to control this vile star.

Remove all earth element items such as crystals, porcelain vase or stone objects from this part of your office/home. In addition, do not have any Fire (red, pink, orange) or Earth (yellow, beige, light brown) elements in these areas.

It is a number that can cause aggression, accidents, mishaps and metal-related injury. It can also cause political turmoil and sparks aggressive behaviour that can become something serious very fast especially when it doubles up when the monthly #7 and #3 argumentative arrives.

The best way to overcome this star is to have a pair of rhinoceros or a blue rhinoceros with elephant to protect and safeguard your home. Other cures such as the Dragon Tortoise supporting a Totem with Elephant and Rhinoceros can be utilized provided it is not the bedroom and should not be placed on the floor. It is important not to have too much metal or crystal or the colours of Earth (light brown, yellow or beige) and Metal (white, silver or gold) in the N of the home/ office in 2025. More Black, Blue or Grey should be used in this area. If your main entrance or bedroom is located in the N of the house, it is important for the family members to carry a blue rhinoceros or black obsidian wulou charm for protection.
