#### 1.6 **SOUTH (#5 Yellow Star)**

The unluckiest of all stars is the #5 Yellow (wu wang) star. This vile star in the South sector in the year 2026 will affect the health and luck of the middle daughter of the family. If this is a common activity area, the main entrance sector or bedroom, it is crucial to stay protected against this vile star especially in 2026 since the South is Fire sector which will aggravate the annual 5 yellow star further. Spending time in this sector may block success and create problems for everyone in the family or office. Make sure that you place at least **two 8" 5 element pagoda to lock up this most unlucky star, especially if this is a main activity area such as the main entrance, living or dining. Please note that unless suppressed, the wu wang (5 Yellow) brings severe illness, accidents and loss that occur in many aspects of life, especially if your main entrance is in the S sector or you are utilizing it as an office or sleeping in a room in the S. Prevention is better than cure, so do not wait until it is too late.
