AUSPICIOUS & INAUSPICIOUS SECTORS FOR THE YEAR 2027

1.1 CENTRE (#9 Wealth Star)

Since 2024, we have entered Period 9, thus the #9 is the current wealth and prosperity star. It brings happiness, passion, recognition and long-term upward mobility. It also has a multiplying effect, so if the basic energies of your home or office are good, it can magnify these favourable energies further.

In 2027, the #9 flies into the Centre. As the ruling star of Period 9 is also #9, the Centre becomes an important sector for visibility, success, celebration and the demonstration of your talents and capabilities. Because the Centre influences the whole home or office, keeping this area bright, open and active can help to spread its auspicious energy throughout the premises.

The Centre can be activated with lights, activity and suitable wealth or success-related items such as the Wealth Vase/ Pot for long-term wealth accumulation, 5 rats wealth attracting jar, Liuli glazed crystal prosperity fishes or other wealth-related items. Where practical, use the central living or dining area more often in 2027 to enjoy the prosperity, good fortune and relationship energy of the #9 star.

1.2 SOUTHEAST (#8 White Star)

Even though we are out of Period 8, the #8 remains an auspicious relationship and wealth star. In 2027, it flies from the East to the Southeast. The Southeast represents the eldest daughter and those born with the Dragon and Snake horoscope may also benefit, especially if they use this sector frequently. The Southeast (provided it is not the kitchen, toilet or storeroom) is an auspicious sector for prosperity, relationship luck and steady progress. Activate it with activity, an air purifier, lights and suitable wealth-related items such as the Wealth Vase, 5 rats wealth attracting jar, Liuli glazed crystal prosperity fishes or number 8 crystal. As the Southeast is a Wood sector while #8 is Earth, avoid overloading the area with too much strong Wood; use the sector naturally and consistently instead.

1.3 NORTHWEST (#1 White Star)

The Northwest is visited by the White Victory star #1 in 2027. This Water star brings literacy luck, career opportunities, income potential, innovation and new beginnings. The Northwest represents the patriarch or father of the family and those born with the Dog and Pig horoscope may benefit, particularly if they use this sector frequently. As the Northwest is Metal and Metal produces Water, the sector supports the #1 star. Tap into its energy with suitable success and career symbols such as the victory success key, victory banner, tortoise figurine or Blue Lapis Globe. It is also a good sector for work, planning, study and important career-related activities in 2027, provided it is not a kitchen, toilet or storeroom.

1.4 SOUTH (#4 Green Star)

The South sector is visited by the love, romance and education star #4 in 2027. The Green star #4 is known as the intelligence star as well as the star of romance and peach blossom luck. It is beneficial for students, academics, writers, teachers, consultants and those in communications or creative work. The South represents the middle daughter and those born with the Horse horoscope may benefit especially if they frequently use this sector.

Activate the South with education and relationship symbols such as the blue lapis globe, double carp over dragon gate, Double Happiness charm, dragon and phoenix or mandarin ducks, where appropriate. Because #4 Wood produces the Fire element of the South, the sector naturally draws on the star's Wood energy; avoid excessive Fire if your main intention is study, writing or relationship luck.

1.5 SOUTHWEST (#6 White Star)

For 2027, the heavenly White star #6 flies into the Southwest of every home, building or office. This star brings heaven luck, helpful people, authority, opportunities and the possibility of unexpected support or windfalls. The Southwest represents the mother or matriarch of the family, as well as those born with the Goat and Monkey horoscope.

The Southwest Earth sector supports the Metal element of #6, strengthening its qualities. Activate the auspicious star with suitable Earth or Metal elements such as a Wealth Tree with Mongoose, gold-plated or purple wealth tree, golden wealth ship, golden or glazed crystal (Liuli) Ruyi, or other symbols of opportunity and support. Spend more time in this sector if it is suitable for use. However, Tai Sui is also located in SW1 in 2027, so keep the sector stable and do not renovate, drill, knock or disturb the Tai Sui portion of the Southwest.

Inauspicious Locations/Directions

1.6 NORTH (#5 Yellow Star)

The unluckiest of all stars is the #5 Yellow (Wu Wang) star. In 2027, it flies into the North sector and can affect the middle son of the family as well as those born with the Rat horoscope, especially if the North is the main entrance, bedroom, office or a commonly used area. Spending excessive time in an afflicted North sector may create obstacles, health concerns, accidents or unexpected setbacks. Place at least two 8" 5 element pagodas in important activity areas such as the main entrance, living or dining area. Brass, bronze or other Metal cures such as the Heart Sutra Pillar or Golden Mantra Pillar may also be used where suitable. In a couple's bedroom, kitchen or service balcony, use at least 2 x 6" 5 element pagodas without mantras.

Spend as little time in this area as possible and keep it quiet. Alternatively, use 6-rod all-metal wind chimes to help exhaust the Earth energy of the #5 star.

Do not disturb the North in 2027: avoid beginning or ending renovations, drilling, knocking, chopping down trees or digging the earth in this sector. If the North is the kitchen, reduce unnecessary Fire activation (that is, open fire cooking) and avoid renovation work there during the year. More metal pots and pans can be kept visible to introduce Metal energy.

Remove or reduce Earth element items such as crystals, porcelain vases or stone objects from this part of your office/ home. In addition, avoid excessive Fire colours (red, pink, orange) and Earth colours (yellow, beige, light brown) in the North during 2027.

Please note that unless suppressed, the Wu Wang (5 Yellow) is traditionally associated with severe illness, accidents and loss, especially when the main entrance, office or bedroom is located in the afflicted sector. Prevention is better than cure, so keep the North stable and apply the appropriate Metal cures.

1.7 NORTHEAST (#3 Jade Star)

The #3 Jade star is often regarded as challenging because it can bring quarrels, conflict, stress, misunderstandings and legal problems. In 2027, it flies into the Northeast sector and can affect the youngest son of the family as well as those born with the Ox and Tiger horoscope, especially if the Northeast is a main entrance, bedroom, office or frequently used area. As #3 is Wood and the Northeast is Earth, the star controls the sector and can make argumentative or impatient tendencies more noticeable when activated.

To reduce quarrelsome and argumentative tendencies, control the #3 star with Fire energy such as red, pink or orange, together with suitable calming symbols. A laughing Buddha, mystic knot charm, red crystal apple, triangular red crystal, red crimson ball, 7 Royal Emblems Red Plaque, 9 Amulets Plaque or Mahabodhi Stupa can be used where appropriate. Avoid water features, too many plants and excessive blue, black, grey, green or dark brown, as Water and Wood can strengthen the #3 star. The Northeast is also opposite Tai Sui in 2027 (Sui Po/Year Breaker), so if possible, avoid renovations, drilling or major disturbance in this sector.

1.8 WEST (#2 Black Star)

The #2 Black star is regarded as an illness star and in 2027, it flies into the West sector. It may increase susceptibility to illness, fatigue or recurring health issues when the West is a main entrance, bedroom, office or commonly used area. The West represents the youngest daughter and those born with the Rooster horoscope may be more affected if they spend substantial time here. The West Metal sector naturally helps to exhaust the Earth element of #2, but it is still important to apply protection in frequently used areas. Use the Herbal Wulou, Golden Garuda Wu Lou, Medicine Buddha plaque (not in the kitchen, toilet or bedroom), bronze wulou, 6" 5 element pagoda, 6-rod metal wind chimes, 3" bronze wulou with bagua or 6 emperor coin ruler as appropriate. The Three Killings also occupy the West in 2027, so this sector should not be disturbed and free from renovation, knocking, cutting, drilling or digging.

Remove or reduce Earth element items such as crystals, porcelain vases or stone objects from this part of your office/ home. Avoid excessive Fire colours (red, pink, orange) and Earth colours (yellow, beige, light brown). Metal colours such as white, silver and gold can be used to help exhaust the Earth energy of the illness star.

1.9 EAST (#7 Red Star)

The violent star #7, also known as the Red Star, is associated with burglary, theft, aggression, accidents, mishaps and metal-related injury. In 2027, it flies into the East sector, affecting the eldest son of the family and those born with the Rabbit horoscope, especially if the East is a commonly used area, main entrance, bedroom or office. As #7 is Metal and the East is Wood, the star can create a harsh controlling relationship with the sector, so avoid adding excessive Metal or Earth energy here.

The best way to manage this star is to introduce Water energy and suitable protective symbols such as a pair of rhinoceros or a blue rhinoceros with elephant. Other cures such as the Dragon Tortoise supporting a Totem with Elephant and Rhinoceros can be used provided the area is suitable and it is not placed on the floor. Avoid excessive crystals, porcelain, Earth colours (light brown, yellow or beige) and Metal colours (white, silver or gold). More blue, black or grey can be used. If the main entrance or bedroom is in the East, carry or place an appropriate blue rhinoceros or black obsidian wulou charm for protection.

ANNUAL INAUSPICIOUS SECTORS

1.10 Grand Duke Jupiter (Tai Sui) –SOUTHWEST IN 2027

The Grand Duke Jupiter (Tai Sui) occupies SW1(bet 202.6 to 217.5 degrees), which is representative of the Goat palace in 2027. Do not disturb this portion of the Southwest in 2027. Avoid beginning or ending renovations, drilling, knocking, cutting or digging in this sector. Display a Pi Yao or annual Tai Sui Plaque in this part of the office/ home if this is part of your annual practice.

Do not sit facing SW1 (bet 202.6 to 217.5 degrees) in 2027, even if it is one of your auspicious directions. In traditional annual Feng Shui practice, directly confronting the Grand Duke Jupiter is avoided.

1.11 Three Killings (San Sha) – WEST (247.6 to 292.5 deg) in 2027

The Three Killings (San Sha) occupy the West in 2027. Do not sit with the West behind you (that is, facing East) for long periods, even if you are facing one of your favourable personal directions. Traditionally, the Three Killings are associated with loss, accidents, lawsuits and gossip when disturbed. As a remedy, display 3 Divine Guardians facing out where suitable (except in bedrooms, kitchens, storerooms or toilets). In a bedroom, kitchen, storeroom or toilet, use a jade Mystic Knot charm or Black Obsidian Wulou charm instead. Do not disturb the West in 2027: avoid renovations, drilling, knocking, cutting or digging in this sector.

In 2027, avoid sitting with the West behind you for prolonged periods. Where possible, face towards the West rather than sitting with your back to it.

Flying Star (Time Dimension – House Natal Chart, Annual or Monthly) Explanation

Stars	Meaning	Element	How to activate	Colours
Good Stars				
9	Current wealth (2024 to 2044)	Fire	Wooden or Fire related objects, Rectangle or Triangle shapes	Wood – Green or dark brown Fire – Red, orange or bright yellow
